Helen E Wetrich Billick attended the University of Iowa from Sept. 1930 to June 1935. She earned a Bachelor of Arts degree 6/3/1935 with a major in Econ, Soc, Com & Soc. Admin. I have a feeling those = Economics, Sociology, Community (?) & Social Administration.
She enrolled in the Graduate College Feb. 1935 but only took one semester (concurrent with last undergrad semester).

Subject: Helen Wetrich

Hello - I am trying to locate graduation records for my late grandmother, Helen Wetrich Billick, and I hope you can help.

She was born in 1912 and appears in the Hawkeye Yearbook editions of 1932, 1933, and 1936 (as a "graduate") as "Helen Wetrich."

She was married in April 1935 to Francis Billick (he was not a student). I believe she graduated in 1935 or 1936, under the name of either "Helen Wetrich" or "Helen Billick."

Our family does not have a copy of her diploma, or any other of her documents related to her time at the university. Indeed, we do not even know the year of graduation. Can you help provide any of the missing details or documents?

Thank you,

Kevin O'Rear
